1. Source: NYS Comprehensive Newborn Screening Program
2. Data exist for women whose first infant of a live birth lived to provide a suitable specimen
3. Subsequent infants of a multiple birth are not reflected in the data
4. When a class does not exist, such as Positive HIV Status, the column or row will not appear in the table for that page
5. An unreportable hospital is a hospital, facility or private doctor reporting an undisclosable number of delivering women
6. Unsuitable specimens and their repeats are NOT included in the data: can cause undercounting with same-day services
