1. Data exist for women whose first infant of a live birth lived to provide a suitable specimen, subsequent infants are not reflected
2. When a class does not exist, such as Positive HIV Status, the column or row will not appear in the table for that page
3. An unreportable hospital is a hospital, facility or private doctor reporting an undisclosable number of delivering women
4. Unsuitable specimens and their repeats are NOT included in the data: can cause undercounting with same-day services

1. Data exist for women whose first infant of a live birth lived to provide a suitable specimen, subsequent infants are not reflected
2. When a class does not exist, such as Positive HIV Status, the column or row will not appear in the table for that page
3. An unreportable hospital is a hospital, facility or private doctor reporting an undisclosable number of delivering women
4. Unsuitable specimens and their repeats are NOT included in the data: can cause undercounting with same-day services

1. Data exist for women whose first infant of a live birth lived to provide a suitable specimen, subsequent infants are not reflected
2. When a class does not exist, such as Positive HIV Status, the column or row will not appear in the table for that page
3. An unreportable hospital is a hospital, facility or private doctor reporting an undisclosable number of delivering women
4. Unsuitable specimens and their repeats are NOT included in the data: can cause undercounting with same-day services
